WORK EXPERIENCE

Software Engineering
Kurmato Softdev

06/2023 - Present, *Noida*   *Pune*
Achieved zero defects for consecutive PIs

- Built RESTful APIs with Express.js, achieving 99.99% uptime and sub-50ms latency.
- Developed scalable Node.js backend services, reducing response time by 40% and memory usage by 30%.
- Mentored 3 junior engineers, improving team velocity by 20% and reducing code review cycle time by 15%

PROJECT

DivineZone - Spiritual Services Platform

- Engineered and optimized the backend architecture of a full-scale spiritual services platform usingExpress, and MySQL.
- Configured WebRTC for low-latency communication.
- Developed and secured RESTful APIs for seamless Android app integration.
- Ensuring real-time data exchange and robust user authentication.
- Integrated features like 'Book a Puja', 'Buy Pooja Samagri', astrology consultations.

Krazy11 – Fantasy Cricket Platform

- Implemented robust user authentication and authorization mechanisms.
- Enhanced platform interactivity by integrating the EntitySports API
- Providing users with real-time match updates and live sports data for increased retention
- Enabled secure payments and wallet features via SharkPe payment gateway
- Built real-time contest booking and team management with strong data validation.
- Architected backend with granular Roles & Permissions for dynamic admin panel and service monitoring.

Home Maintenance – On-Demand Service Platform

- Created RESTful APIs for user onboarding, vendor management, and Team appointment scheduling.
- Implemented secure JWT authentication and role-based access control for users, vendors, Teams and admins.
- Optimized database schemas for scalable service categorization and real-time booking updates.
- Developed backend support for a dynamic admin panel to monitor bookings and service delivery

SKILLS

JavaScript	RESTful APIs
TypeScript	WebRTC
Node.js	Socket.IO
ReactJS	Jenkins
Express	Docker
MySQL	Git
Postgres	
MongoDB	

EDUCATION

Masters of Computer Application
SRM University

06/2024 - 04/2026   *Chennai,India*

Bachelor of Science
Delhi University

06/2021 - 04/2024   *Delhi,India*

10th & 12th -
CSBE - 86% & 87%

02018 / 2020   *Ghaziabad, India*

Certification

MERN stack
DUcat IT training

06/2021 - 04/2024   *Noida,India*

ACHIEVEMENTS

Recognized as Best performer of year.

Recognized by company leadership for consistently delivering high-quality code and completing tasks ahead of schedule.
